Dansville Municipal Airport Invites Community's Input for Airport Master Plan

Geneseo, NY, January 30, 2020 — The first public meeting for the Dansville Municipal Airport Master Plan will be Tuesday, February 11, 2020 from 4:00 – 6:00 PM at the North Dansville Town Hall located at 14 Clara Barton Street, Dansville, New York. This meeting will be an open house format where attendees may stop in at their convenience. This meeting will give an overview of the project, talk about forecasts of airport activity and accommodating future demand, and give the public the opportunity to share input on airport development. There will be informational displays about potential improvement projects and stations where attendees can give input on the airport's existing conditions and future use.

Dansville Municipal Airport, owned and operated by the Town of North Dansville, is a public-use, general aviation facility. The airport covers approximately 160 acres in the northwestern portion of the Town of North Dansville. It is host to a number of local events including the Dansville Balloon Festival and home to aviation groups such as the Dansville Pilots Association and Finger Lakes Soaring Club.

The last master plan was completed in 1990 and the current airport layout plan was approved by the Federal Aviation Administration (FAA) in 2005. The main objective of the master plan is to outline the vision for the airport and document the extent, type, and schedule of development required to accommodate existing and future needs.

For more information about the airport and the development of the master plan, please email dansvillemp@cscos.com.

Media contacts are Kim Fabend, C&S Companies, at kfabend@cscos.com and Dennis Mahus, North Dansville Town Supervisor, at 585-335-2330.
