Livingston County to Hold Distribution Event for Local School Districts

Geneseo, NY, July 29, 2020 — On Friday, July 31, 2020, from 10AM to 12PM, Livingston County will distribute thousands of masks, hundreds of gallons of disinfecting spray and hand sanitizer to local school districts in anticipation of our schools re-opening in the fall.

Using the Livingston County Emergency Operations Center at 3360 Gypsy Lane in Mount Morris as the distribution site, County officials are coordinating directly with each school district in Livingston County to provide a total of 3,500 masks and 100 gallons each of disinfecting spray and hand sanitizer for each school.

David L. LeFeber, Chairman of the Livingston County Board of Supervisors, stated, “We are thrilled that we can distribute masks, disinfectant, and hand sanitizer throughout the county in order to make our schools safer, healthier places. These supplies will go a long way in assisting our schools as they plan for their re-opening.”
