Ribbon-Cutting Ceremony Held for Livingston County Emergency Medical Services Facility

Geneseo, NY, November 5, 2020 — On Wednesday, November 4, 2020, a ribbon-cutting ceremony was held for the new Livingston County Emergency Medical Services (LCEMS) facility, an expansion of the Livingston County Emergency Operations Center at the Hampton Corners County Complex. The event was scaled-down to include a small number of invitees because of the COVID-19 pandemic.

The new LCEMS facility provides ample space for emergency medical personnel, technician and supervisor offices, a training room, equipment and supply storage, and space for vehicles to be stored in protected parking areas.

Karen Dewar, LCEMS Director, stated, “This project is an outstanding example of intergovernmental cooperation at its finest. It would not have been possible without the support of our Board of Supervisors, County Administrator, and federal, state, and local partners each step of the way.” Dewar continued, “This brand new facility will enable our agency to grow as the demand for our services continues to increase. It will allow us to create efficiencies, protect our vehicles and equipment, and promote education, training and teamwork as we move into the future.”

For more information on the new LCEMS facility, please call LCEMS at 585-243-7596.
