Livingston County Sees Increase in Active COVID-19 Cases

Mount Morris, NY, November 28, 2020 — The Livingston County Department of Health (LCDOH) reports that, as of November 27, 2020, there are 51,985 negative and 705 positive cases of COVID-19 in Livingston County. Of these positive cases, 93 are currently active.

According to Jennifer Rodriguez, Livingston County's Public Health Director, "This reported case count represents the highest peak of active cases in Livingston County since the beginning of the pandemic."

In addition, County Administrator Ian M. Coyle reports that the Livingston County Center for Nursing and Rehabilitation (CNR) is experiencing an uptick in cases. He stated, "We remain strong in our resolve to prevent the virus from further spreading within both the nursing home and the community. All residents are strongly encouraged to do their part. Please follow COVID-19 guidelines and protocols to assist us in this public health battle."

LCDOH continues to update Livingston County's dedicated COVID-19 webpage with numbers of positive and negative test results once daily, Monday – Friday. Please visit the webpage here.

If you have a fever, cough or trouble breathing, call your health care provider for an assessment of your symptoms. If you feel as though you may have had exposure to COVID-19, please call LCDOH at 585-243-7270. Call 1-877-280-6775 if you would like general information on COVID-19 or to learn how to volunteer. Livingston County Mental Health has created a help line for community members who need someone to talk to during these stressful times. This is a free and confidential service. Call 585-243-7251, Monday – Friday from 9:00AM – 5:00PM. For COVID-19 information, join us on Facebook, Twitter, and our YouTube Channel.
