F-500 EA Seminar / Demo

October 11, 2023

7:00 to 9:30 p.m.

Dival Fire Equipment will provide a seminar/demo on F-500 encapsulating agent at the Livingston County Emergency Operations Center.

- Features / Benefits / How it is used / Live fire utilization demonstration

F-500 Encapsulator Agent (EA)

F-500 Encapsulator Agent is not a foam, so it contains no fluorinated ingredients, such as perfluorooctyl sulfonate (PFOS). F-500 EA is 100% biodegradable and is non-hazardous, containing no ingredients reportable under the Superfund Amendments and Re-authorization Act (SARA) Title III, Section 313 or the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). Shelf life is 15 years and it can be discarded as a non-hazardous waste under RCRA CFR261.

F-500 EA is recommended for Class A, Class B (polar and nonpolar), Class K, Class D, and Lithium-ion Battery fires.

The training session is open to all Livingston County Fire Department response personnel.

PRE-REGISTRATION IS REQUIRED
